OUR SERVICES

From network to doorstep.

A single movement or a complete operation. Start with your requirement and we will work through the practical detail with you.

01

Linehaul & road transport

Local and national trunking with professional HGV drivers and dedicated transport management.

02

Last mile delivery

Drivers, vehicles and on-site management for an operation built around your depot and your customers.

03

Sortation & depot operations

Parcel sorting and sub-depot support to help organise the next stage of the delivery journey.

04

Dedicated transport

Discuss recurring van and HGV requirements, the resources you need and how the service will be managed.

05

Ad hoc transport

Individual movements and short-term requirements, assessed against load suitability and available capacity.

THE PEOPLE. THE FLEET. THE DETAIL.

Built through experience.

People who know the job.

Our leadership includes people who started with LLG as drivers and administrators. Their first-hand experience keeps decisions connected to the operation.

Established in 2012

Founded by Daniel Lewtas, with a people-first approach rooted in dignity, respect and responsibility.

Managed operations

Transport, fleet, regional, finance and compliance teams working together behind the service.

Progress on the road

Our Mercedes-Benz eActros 600 electric trucks are part of the fleet, alongside the vans and HGVs supporting our operations.

YOUR NEXT LOGISTICS PARTNER

Let’s talk about the actual job.

A useful conversation starts with a few details. Share what you need to move, and we will explore the right operation with you.

The load	Freight type, dimensions, weight and quantities.
The locations	Collection and delivery postcodes, access and site conditions.
The timing	Dates, time windows, operating days and expected frequency.
The service	A one-off movement, recurring work or a complete managed operation.
The detail	Loading equipment, handling requirements and service expectations.

Start the conversation.
